Pratik Rajesh Singh

I aim to attain an engaging internship position in the field of engineering. I am a keen learner of new skills. I will be actively contributing to your product and along with it I would enhance my skills using the experience I will gain during this internship programme, in this very dynamic field.

My Portfolio

Projects

Book My Basket

Android Application

Book My Basket (BMB) it is an android application. I and my fellow teammates developed this application during the Covind-19 pandemic era. The application helps the local stores of various areas to indicate their status (open/closed) for avoiding crowds

RNXG Website

Web Application

The web application is made using React Js and Material UI. Me and my teammate built this website for RNXG, the official robotics club of the institute.
